

AUTHOR'S UNIQUE TOOLS FOR INCOME INCREASE

If you are looking for ways to increase your profit, then we want to offer you an additional and little-known way to achieve this goal along with all the necessary tools.

The easiest way to increase income is to attach to your existing business, by placing on the balance sheet, a branch of a non-offshore company (tax burden of 5% of annual income), which contains a complete set of tools, the use of which will contribute to the growth of the income of this branch. And therefore the growth of your company's income, since the branch is its constituent part. The branch can be used for any legal activity, including suitable for circular economy. Instead of the Euro currency, the offers may also include dollars or another national currency. The prices of branches are already reduced by the amount of earnings of their owners from the promotion of branches through MLM.

Branches with the following instruments are offered as packages:

Package 1. The branch has equity on its balance sheet of your choice of EUR 100,000 or EUR 500,000 or EUR 1 million or EUR 3 million or EUR 5 million or EUR 10 million. It is possible to adapt the amount to the client's needs. The capital is in an account in a foreign financial institution. The account belongs to the branch. To purchase such a branch, you need to pay 101% of the amount of equity capital that is in the branch account and is transferred to the new owner along with the account. If the new owner needs a seal for work, it is included in the sales package and is made according to the project of the new owner. The bank account of the branch is re-registered together with the capital to the new owner on the basis of the sales contract of the branch. The branch can be bartered in exchange for the assets of the new owner of the branch. The new owner of the branch automatically acquires the rights of an authorized reseller of branches (conditions in Package 4).

Package 2. The branch has capital on its balance sheet in the form of a loan at 2% per annum for your choice of 100,000 euros or 500,000 euros or 1 million euros or 3 million euros or 5 million euros or 10 million euros. It is possible to adapt the amount to the client's needs. The capital is in an account in a foreign financial institution. The account belongs to the branch. For the purchase of such a branch, the buyer needs to pay from his own funds 1% of the amount of credit capital, which is transferred to the new owner along with the account. If the new owner needs a seal for work, it is included in the sales package and is made according to the project of the new owner. The bank account of the branch is re-registered together with the capital to the new owner on the basis of the sales contract of the branch. The new owner is also re-registered as a borrower under the credit agreement, which has already been concluded by the branch before its sale. The new owner of the branch automatically acquires the rights of an authorized reseller of branches (conditions in Package 4).

Package 3. The branch does not contain capital in the form of money on its balance sheet, but it contains leads that have already been paid for at 100% of their value with a conversion rate of 99% - (Lead is one of the main elements of CRM. A lead is an unqualified sales opportunity. A lead can be a company or an individual who has expressed interest in a company's product and/or service. In a CRM system, a lead is usually the starting point of a person's record). And leads with a 99% conversion rate we offer ensure almost 100% sales for each lead. That is, you can choose branch with leads that can bring a net profit of 100 thousand euros or 500 thousand euros or 1 million euros or 3 million euros or 5 million euros or 10 million euros. It is possible to adapt the amount of profit to the needs of the client, as well as pay the cost of the branch in parts as agreed by the parties. The

branch has an account in a foreign financial institution, to which customers according to leads will pay for goods or services. The account is owned by the branch. To buy such a branch, you need to pay 15% of the amount of profit that the leads will bring, which are transferred to the new owner along with the branch. If the new owner needs a seal for work, it is included in the sales package and is made according to the project of the new owner. The branch's bank account is re-registered to the new owner based on the branch's sale and purchase agreement. The new owner of the branch automatically acquires the rights of an authorized reseller of branches (conditions in Package 4).

Package 4. Owners of branches who purchased them according to packages 1-3, as well as other authorized resellers, have the opportunity to purchase these branches at a 30% discount for the purpose of reselling them to their business partners, provided that, in addition to the branches themselves, they will pass this offer on to the new owners. The discount prices for the offers in packages 1-3 assume that buyers of branches based on MLM approach will make every effort to ensure that their business partners appreciate the benefits of using such branches by applying them as part of their own business.

Package 5. Lease of a branch together with a bank account. The branch can be rented for commercial purposes at a price of 7% of the turnover plus \$100/month, which is carried out by the recipient of the rented branch. No bureaucracy, no need for a physical visit to the lessor's office, no accounting, increased profits, significant tax reduction, privacy and confidentiality, issuing invoices, online or email banking, individual manager, adaptation of lease terms to the client's needs, corporate bank account (including IBAN), account in EUR and other currencies, instructions to the lessee, admission to rent online. The leased branch has no capital on its account.

What is the work order? You send invoices to your customers in favor of the branch you rent. Next, you receive payments to your bank account and pay your suppliers from the received funds. And at the end, transfer the profit to your bank account. Each candidate of the lessee is considered individually. (The service is provided experimentally)

The offer comes into force on 07-11-2022

P.S. Instead of a branch, any other independent structural unit can be used in the form of a separate structural unit or even a separately registered legal entity at the request of the client.

The greatest economic effect from the use of our branch is achieved in the interaction between MLM members who own branches. Additional net income can reach even 45% and depends on the country where you do business.
